Stock Show Day

Indications Are April 14 Will Be a Big Day for American Fork.

The executive committee of the live stock show met Wednesday evening and took up several matters toward making our coming stock show a success. The classification lists have been completed and will be published in the next issue of this paper. Sufficient classes have been provided to admit of entries of any stock in the community, and all persons owning good stock are urged to call up some member of the committee and arrange for entering their animals. Many stockmen in the north end of the county have already signified their intention of exhibiting and many more entries will probably be made in the next week.

Arrangements are being made to secure several amusements for the day for the benefit of the younger class, who are less interested in the stock. All things indicate that April 14, the stock show day, will be a big day for American Fork.

SUCCESSFUL CONCERT, DANCE AND RECEPTION

The Hallowell concert and dance Thursday evening in the Apollo Hall was certainly all that could be desired, both from the artistic character of the music and the point of attendance.

Most of the numbers were encored, some of them several times. It was one of the largest crowds ever gotten into the hall.

Added interest was given to the occasion by reason of the fact that it was used as a sort of welcome and reception to the Orem Interurban railroad, the officials of which came down in a special car, accompanied by their wives.

Two hundred people came over from Lehi and many from Pleasant Grove.

After the concert the Salt Lake visitors and a number of local people went to the City Hall, where light refreshments were served and some musical numbers rendered by Mr. and Mrs. Hickman, Miss Edith Hindley and Mr. Foote. President S. L. Chipman acted as toastmaster and talks were made by President W. C. Orem, Will G. Farrell of the Salt Lake Commercial Club, A. J. Evans and James Chipman, Sr. Incidentally the event added about \$100 to the fund for purchasing Tabernacle seats.

CONSOLIDATION MEETING.

A successful and fairly well attended consolidation meeting was held in the Fourth Ward chapel Sunday evening. State Superintendent A. C. Mathison of Salt Lake City and Joseph M. Holt, a taxpayer from South Jordan, addressed the meeting. Superintendent Mathison treated school consolidation from the point of getting greater efficiency in the schools and Mr. Holt told of its practical workings in the Jordan school district.

The question of consolidating the schools of Utah county is gradually gaining in favor with the people, and when squarely brought up to them for endorsement will probably carry.

WATER CERTIFICATES BEING ISSUED

The city recorder and Commissioner Hawkins are getting out and issuing water certificates to all the owners of water under the American Fork irrigation system. When the work is completed the farmers will have official showing title to their water the same as deeds showing title to their lands.

It is a big job, as there are three kinds of certificates—primary, secondary and surplus. Probably three-fourths of the area is entitled to pri-

many shares. In all there will be approximately 1,000 certificates issued to the owners of between 5,000 and 6,000 acres of land.

The certificates will show on which of the nine different ditches the water is used. It may be transferred freely under the special ditch, but certificates can be transferred from one ditch to the other without the consent of the city council.

COMMUNICATIONS.

[Articles under this head will always be published when of local interest, whether we agree or disagree with the writers, whenever we have space for such communications.]

American Fork, March 25, 1914.

Dear Sir: About four weeks ago a taxpayer asked a few questions relative to the paving ordinance, which the last city council was so anxious to pass, and which a number of citizens protested against. But as yet no one, either of the late city council or anyone else, has attempted to give any enlightenment or reply to the questions asked.

Now, really, what can be the reason? It surely can not be that no one can give us a little information through the columns of your valuable paper. I wonder if they were too disagreeable to answer; and the thought is—to keep quiet and the question will down. But I don't think it will. If the thing is wrong and contrary to the law, it needs bringing to the light and showing the illegality of those things which are done by our officials; and if our state legislature has passed any act extending the provisions of the state constitution, giving city councils the right to bond the people, or any part of the inhabitants of a city, more than provided in the article and section quoted in the letter a few weeks ago, the people ought to know it.

You know, Mr. Editor, it is no crime to ask for information. But it is a crime to sit at your ease and let wrong be done, because you are afraid someone will be offended; and if these things are allowed to go on there is no telling where we will stop.

But one thing I believe is sure, and that is that this question of the legality of the city officials imposing debts upon the people without their consent is not going to down; it won't keep silent; it may cost a little to make a noise, but if the people keep silent it will cost them more, and it seems there has been a great deal of the policy of keeping silent carried on; but it is time now to change a little and consider the poor and those who can't afford to keep a bank account. You may borrow money for this, that and the other, but some day both principal and interest has to be paid, and the laboring man is the one who usually has it to pay in the end. And if the people have to pay the bill, let them have a voice in, as provided by law.

Thanking you for the courtesy of a little space in the CITIZEN, I remain, Yours very truly,

ONE WHO WANTS TO KNOW.

leged to be a balance due for work done by plaintiff for defendants. The suit was first filed at Price in the Seventh District Court, and was transferred to the Fourth District Court.

It requires no talent to run down the town in which one lives. All that one has to do is to oppose everything designed to build up the town, look with jaundiced eye on everything in which others see good, look glum and bored when someone speaks encouragingly. It is easy to do all that, and in doing it to be set down as a "knocker" by all decent citizens.

Comb Sage Tea In

Hair To Darken It

It's Grandma's Recipe to Keep Her Locks Dark, Glossy, Thick.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's treatment, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mossy mixture at home. All drug stores sell the ready-to-use product called "Wyeth's Sage and Sulphur Hair Remedy" for about 50 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive; besides prevents dandruff, itching scalp and falling hair.
